

Microbiology Tests for Solids / Sludge

Parameter	Method
Coliform, Fecal MPN* (Most Probable Number)	SM 9221E
Coliform, Total MF* (Membrane Filtration)	SM 9222B
Fecal Sludge MF	SM 9222D
Fecal Sludge MPN	EPA 1681

BART test for Micro-Algae*

- o See Drinking Water analysis for all bacteria identified

BART test for Denitrifying Bacteria*

BART test for Fluorescent Pseudomonads*

BART test for Heterotrophic Aerobic Bacteria*

BART test for Iron Reducing Bacteria*

BART test for Nitrifying Bacteria*

BART test for Pool, Spa and Hot Tub*

BART test for Slime Forming Bacteria*

BART test for Sulfate Reducing Bacteria*

Filamentous bacteria slide identification*

Invertebrate slide identification*

Note: * indicates non-certified tests
