# The Difference

Training is an invaluable part of the professional development of all water and wastewater treatment plant operators and lab technicians. It provides the solid foundation that new operators need for them to understand the importance of water and wastewater treatment and the processes involved. It allows skilled operators to make informed decisions based on the combined knowledge acquired through training and experience. Training is necessary for the operator to understand the theory behind treatment processes, but experience is also needed to be able to apply the knowledge in real world situations so as to effectively manage the treatment system.

**Accurate Environmental Training Center (AETC)** is unique in that their staff of ODEQ certified instructors have **decades of experience teaching and operating, troubleshooting and designing treatment processes.** AETC's training centers in Stillwater and Tulsa offer a **professional, yet comfortable atmosphere in which to learn** as AETC helps prepare you for a career in the water and wastewater industry. Students of AETC learn **what it takes to be a successful operator** by emphasizing the role of the operator and how their daily activities can have positive and negative effects on the overall system. This "big picture" perspective of training allows the operator to identify with the material being taught by relating it to their personal and professional life – every decision made or action taken affects the individual and the system, as well as the community.

Take a look at some features and benefits of an exceptional environmental training program:

- **7 DEQ certified instructors, all with degrees ranging from Bachelors to Ph.D.**
- **All classes taught by multiple instructors, each an expert in the subject they teach**
- **Training Centers in Stillwater and Tulsa**
- **AETC study guides provided FREE with every class**
- **FREE snacks and refreshments throughout every day of class**
- **State-of-the-Art presentation equipment**
- **2500sqft hands-on laboratory training facility**
- **Extensive hands-on training with every lab class**
- **AETC rewards effort and top performers with certificate awards and FREE tuition**
- **No price increases in over 10 years, while continuously improving and upgrading their training program and facilities**

Contact **Accurate Environmental Training Center** to register for your next class and **experience the difference exceptional training makes.**

## STILLWATER CLASSES

### JANUARY 2014

**03** Open Exam Session #11501  
**07 – 09** "D" Water & Wastewater Oper  
**13 – 14** "C" Water Operator  
**27 – 30** "C" Water Laboratory

### FEBRUARY

**04 – 06** "D" Water & Wastewater Oper  
**07** Open Exam Session #11502  
**10 – 13** "A/B" Wastewater Operator  
**17 – 18** "C" Wastewater Operator  
**24 – 27** "C" Wastewater Laboratory

### MARCH

**04 – 06** "D" Water & Wastewater Oper  
**10 – 13** "A/B" Wastewater Laboratory  
**14** Open Exam Session #11752

### APRIL

**01 – 03** "D" Water & Wastewater Oper  
**11** Open Exam Session #11753  
**21 – 24** "C" Water Laboratory  
**28 – 05/01** "A/B" Water Laboratory

## TULSA CLASSES

### JANUARY 2014

**10** Open Exam Session #11503  
**15 – 16** "C" Wastewater Operator  
**21 – 23** "D" Water & Wastewater Oper

### FEBRUARY

**14** Open Exam Session #11504  
**19 – 20** "C" Water Operator  
**25 – 27** "D" Water & Wastewater Oper

### MARCH

**07** Open Exam Session #11749  
**12 – 13** "C" Wastewater Operator  
**18 – 20** "D" Water & Wastewater Oper

### APRIL

**04** Open Exam Session #11750  
**09 – 10** "C" Water Operator  
**14 – 17** "B" Water Operator  
**22 – 24** "D" Water & Wastewater Oper

## Monthly Open Exam Sessions

Although AETC offers certification exams at the end of every certification class, they also offer **open exam sessions** for anyone who needs to re-take a certification exam or for those who have already met the training requirement for a certain exam and do not need to take the associated class. They are **held on the first and second Friday's of each month in Stillwater and Tulsa and begin at 8:30am**. The three week DEQ exam application deadline also applies to open exam sessions. Once you have submitted your exam application to the ODEQ, be sure to **contact AETC to register for the exam session**. Download the ODEQ exam application at the AETC website [www accuratelabs.com](http://www accuratelabs.com), or call (800) 516-LABS to have a copy faxed to you.

**Accurate Environmental** is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

**Accurate Labs** is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

**Accurate Environmental Training Center (AETC)** is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

**Accurate Laboratory Supplies (ALS)** is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

**Accurate Field Services**, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

**Accurate Engineering Services (AES)** provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
