## Environmental Training At Its Best

Training is an important part of the professional development of all water and wastewater treatment plant operators and lab technicians. It provides the solid foundation that new operators need for them to understand the importance of water and wastewater treatment and the processes involved. And, it allows skilled operators to make informed decisions based on the combined knowledge acquired through training and experience. This concept directly relates to **Accurate Training Center's goal of providing the highest quality education so that operators can produce the best water possible for our communities.**

**Accurate Environmental Training Center is unique** in that their staff of ODEQ certified instructors have **decades of experience teaching and operating, troubleshooting, and designing treatment processes.** Accurate's Training Centers in Stillwater and Tulsa offer a **professional, yet comfortable** atmosphere in which to learn. Students will learn what it takes to be a successful operator by emphasizing the role of the operator and how their daily activities can have positive and negative effects on the overall system. This "big picture" perspective of training allows the operator to identify with the material being taught by relating it to their personal and professional life – every decision made or action taken affects the individual and the system, as well as the community.

### Consider some of the many benefits of the Accurate Training Center program:

- ❖ **7 DEQ certified instructors** on staff, all with degrees ranging from Bachelors to Ph.D.
- ❖ Classes taught by **multiple instructors, each an expert in the subject they teach**
- ❖ Training Centers in **Stillwater and Tulsa**
- ❖ **State-of-the-Art classrooms** and presentation equipment
- ❖ Half of every lab class is spent doing **hands-on training in a working lab**
- ❖ Access to some of the **most advanced analytical equipment in the nation**
- ❖ **No price increases in over 15 years, while continuously improving and upgrading** the training program and facilities
- ❖ **AETC study guides provided FREE** with every class
- ❖ **FREE snacks and refreshments** throughout every day of class
- ❖ **Instructors available 24/7** for any follow up questions or concerns students have after returning to their facilities

**Contact Accurate Environmental Training Center to register for your next class and experience environmental training at its best.**

## STILLWATER CLASSES

### JANUARY

**05 – 07** "D" Water & Wastewater Oper  
**11 – 12** "C" Water Operator  
**15** Open Exam Session #12959  
**25 – 28** "C" Wastewater Laboratory

### FEBRUARY

**02 – 04** "D" Water & Wastewater Oper  
**08 – 09** "C" Wastewater Operator  
**12** Open Exam Session #12960  
**22 – 25** "A/B" Wastewater Operator

## TULSA CLASSES

### JANUARY

**08** Open Exam Session #12957  
**13 – 14** "C" Wastewater Operator  
**19 – 21** "D" Water & Wastewater Oper

### FEBRUARY

**05** Open Exam Session #12958  
**10 – 11** "C" Water Operator  
**16 – 18** "D" Water & Wastewater Oper

## On-Site Certification and Custom Training

Accurate Environmental Training Center can provide ODEQ certification and custom training classes at the client's facilities. On-site training provided by Accurate may used to meet DEQ's training requirements for certification exams, as well as annual license renewal training. The purpose of training is to expand the operator's knowledge, providing him with the tools necessary to perform his job more effectively. What better way to do this than to have classes designed specifically for your treatment plant or laboratory system. Accurate Training Center works with the client to develop a class that covers the specific topics and information that will be beneficial to the operators and the system as a whole. Online certification exams can also be taken on-site at the end of the certification classes.

**Questions, comments, or suggestions?** If you have a question or comment about something you've seen in our newsletter, or if you have suggestions about topics you would like to read about in future newsletters we would like to hear from you. Email your comments or suggestions to [jeff@accuratelabs.com](mailto:jeff@accuratelabs.com) .

**Accurate Environmental** is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

**Accurate Labs** is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

**Accurate Environmental Training Center (AETC)** is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

**Accurate Laboratory Supplies (ALS)** is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

**Accurate Field Services**, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

**Accurate Engineering Services (AES)** provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
