## Unlocking Success with Accurate Environmental Training Center

**Accurate Training Center (ATC)** stands out as a shining example of excellence in environmental education. This exceptional facility offers a host of benefits that make it a top choice for individuals and organizations seeking to expand their knowledge and skills in this critical field.

One of the most notable advantages of this training center is its commitment to creating a **comfortable and conducive learning atmosphere**. The facility is designed to ensure that students can focus on their studies without any distractions, fostering an environment that enhances the learning experience.

**ATC's** investment in **state-of-the-art presentation equipment** further enhances the learning process. Modern technology ensures that students receive up-to-date information presented in a clear and engaging manner. All of this makes it easier for learners to grasp complex environmental concepts and stay current with industry best practices.

A key strength of the center is its **highly educated instructors**. The team comprises experts with extensive experience and knowledge in the field, bringing real-world insights into the classroom. ATC instructors also have degrees in higher education ranging from bachelor's to Ph.D. Their guidance and mentorship help students gain a deep understanding of environmental issues and best practices.

**ATC** is also **committed to continuous improvement**. It regularly updates its curriculum to stay in line with evolving industry standards and regulations. All **new testing computers** at both training centers ensure that online certification testing goes as smoothly as possible. This dedication to staying at the forefront of environmental education ensures that graduates are well-prepared for the challenges of today and tomorrow.

In conclusion, **ATC** offers a **comprehensive and rewarding learning experience**. With a comfortable atmosphere, state-of-the-art equipment, highly educated instructors, and a commitment to continuous improvement, this center equips individuals and organizations with the knowledge and skills needed to thrive in the ever-changing environmental landscape. Choosing **ATC** is a step toward a brighter, more sustainable future.

 15-18 A/B WW Oper  
 23-25 D W & WW Oper

**IMPORTANT:** Certification exams are offered on the last day of class. You must submit an exam application to the ODEQ at least 3 weeks before your scheduled test date. Copies of the DEQ application can be downloaded from the Accurate Labs and Training Center website at

[www accuratelabs.com/training-center](http://www accuratelabs.com/training-center)

You can also register for classes online, download copies of the DEQ operator study guides and lab manuals, and explore the wide range of services Accurate offers.

**For more information, or to register for training contact Jeff Clarke at (800) 516-5227 or email [Jeff@accuratelabs.com](mailto:Jeff@accuratelabs.com)**

**Accurate Labs** is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

**Accurate Environmental Training Center (AETC)** is an award-winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

**Accurate Laboratory Supplies (ALS)** is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

**Accurate Field Services**, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

**Accurate Engineering Services (AES)** provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
