Stage 2 Disinfection Byproducts (DBP) Testing Program

Accurate Environmental Labs is the State's largest commercial lab with locations in Stillwater, Oklahoma City and Tulsa. Our growth is a result of our technical skill, the many unique services offered, cutting edge equipment, and most importantly CUSTOMER SERVICE!! When you call us you get a REAL PERSON who will be able to answer all of your questions concerning EPA Drinking Water or Waste Water Programs. If you do not have a relationship with an engineering company or expertise with water chemistries, Accurate can even help you trouble shoot issues which your plant may be having. Accurate is certified by the Oklahoma Department of Environmental Quality and the National Environmental Laboratory Accreditation Program to perform Trihalomethanes and Haloacetic Acids (THM-HAA) Analysis plus all other required analysis.

All labs can run tests but Accurate's growth is the result of the amount of care we take with our clients. Accurate treats a small system with the same respect and service as a large system. Often times non-clients will call for assistance and after the care they experience, will quickly become a client. Founded in 1990, Accurate Environmental is the State's largest full service, independent laboratory - recognized for some of the most advanced analytical instrumentation in the industry. With over 21 years testing experience, we are here to help you with the Stage 2 DBP and all other analysis that you must perform. **Experience our level of customer care and you decide.**

- * ODEQ/EPA Accredited Laboratory – (Certified in Oklahoma and the National Environmental Laboratory Accreditation Program)
- * Water Sample Collection Kits and sampling directions delivered directly to you
- * 24-7 Customer access to their password protected analytical data
- * Easy to read analytical report
- * Data submitted to the EPA for you
- * Speak with a knowledgeable person when you call
- * Possible sample pick up on our many routes which cover the State.

If you have questions about regulations, sampling procedures, testing methods, reporting requirements, or pricing, please call 800.516.5227 or visit our web page at Accuratelabs.com and let us show you the level of care our clients have been experiencing.

Accurate Environmental is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

Accurate Labs is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. They are nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

Accurate Environmental Training Center (AETC) is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

Accurate Laboratory Supplies (ALS) is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

Accurate Field Services, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

Accurate Engineering Services (AES) provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
