## Accurate Labs & Training Center New Tulsa Location!

Soon, **Accurate Labs & Training Center in Tulsa** will be **moving** to a new location. The new facility located at **3910 E. 51<sup>st</sup> Street** will double our current size to **10,000 sqft** and provide much needed **additional parking** for our laboratory clients and certification students. This move **will allow Accurate to expand their Tulsa lab testing services** as well.

The new Lab and Training Center is just a few minutes southwest from the current location on 40<sup>th</sup> Street. A short drive one mile south of the current facility on Sheridan to 51<sup>st</sup> Street, then one and one-half miles west on 51<sup>st</sup> will take you right to Accurate Labs and Training Center's new Tulsa office. The new location is also very easily accessed from I-44, which makes getting there simple and convenient no matter where you are coming from.

Renovations are now being completed, and we plan to move into the new facility in the next couple months. We are very excited about the growth of the company and the position it has put us in to better serve our clients. We look forward to many more years of serving Oklahoma's operators and lab technicians, while continuously striving to set the standard for environmental laboratories and operator training.
