## Environmental Insurance

Accurate Environmental has been providing **environmental services and solutions** to their clients for nearly **30 years**. One service that has evolved over that time is **Environmental Insurance**. Through decades of experience working with water and wastewater systems, **Accurate Environmental** began offering assistance to **help operators and supervisors monitor and control** their treatment systems, and provide **correspondence with regulatory agencies** on the system's behalf. With an **Oklahoma licensed engineer** on staff and the **largest commercial environmental lab** in the Oklahoma, **Accurate Environmental** can also provide **treatability studies** and **process modification** recommendations to help operators and their systems **adapt to everchanging and unique environmental stresses** on the many processes involved. **All of this offered under a single service is what we call Environmental Insurance.**

**Environmental Insurance** offers treatment systems a safety net that helps them **stay on top of monitoring and reporting** requirements such as monthly Discharge Monitoring Reports (**DMR**) and annual Consumer Confidence Reports (**CCR**). Clients also have peace of mind knowing that when problems do arise, they have **24/7 access to a team of environmental treatment system experts** to ensure the problem is **resolved quickly** and with **minimal impact** to the system.

#### Valuable services provided with the Environmental Insurance program:

- Expert technical assistance
- 24/7 on-call technical advice
- On-site monthly inspections
- Treatment process troubleshooting
- Monthly and annual reporting assistance
- Correspondence with regulatory agencies
- Plant performance and capacity evaluations
