

Environmental Insurance

Over the past 30 years, **Accurate Environmental** has been providing environmental services to water and wastewater treatment plants throughout Oklahoma. Working closely with many of the treatment plants across the state made Accurate realize there is a need for a **support system to help operators** run their treatment systems as **efficiently and cost effectively** as possible. This is especially true for smaller systems with limited resources and few operators. In response to this need, Accurate Environmental developed the **Accurate Environmental Insurance** program.

The **Environmental Insurance** program provides a **licensed engineer** and **highly certified and experienced operators** to make regular site visits, review operational data, and communicate with the operators to provide recommendations and technical advice so that **optimum operation of the water or wastewater treatment system** can be achieved, and then, maintained.

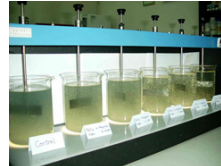

Since there is often an informational disconnect between city administrators, the treatment plant operators and regulatory agencies, **Accurate Environmental Services** also acts as a **liaison between the various groups** to help strengthen communication and understanding among the various people and agencies involved.

Clients of the **Accurate Environmental Insurance** program benefit from the following features:

- Plant and Process Evaluations
- Monthly site visits
- Help tracking monthly sampling and monitoring requirements
- Assistance with monthly and annual reporting
- Technical assistance with operational problems
- Treatability studies
- Method Development
- Having a liaison between the operators, administrators, and regulatory agencies
- On call technical advice

Contact **Accurate Environmental Services** today to find out how they can help you safeguard your system and provide much needed support for the people that are put in charge of the health and safety of our communities and environment.

For more information contact **David Kincannon** and **Scott Taylor** at **(800) 516-5227** or email **David@accuratelabs.com** or **Scott@accuratelabs.com**
