Realizing the Value of AETC Training

Accurate Environmental Training Center (AETC) strives to provide the best education possible in an effort to help treatment plant operators safely and efficiently produce the best quality water possible, and to become safe and proficient laboratory technicians. Take a look at some of the differences that set AETC apart from the competition:

- 7 DEQ certified instructors, all with degrees ranging from Bachelors to Ph.D.
- Over 100 years combined experience in design and operation of water and wastewater treatment plants and environmental laboratories.
- Formal classroom training using state-of-the-art presentation equipment.
- Hands-on training in a new 2500sqft modern laboratory with brand new equipment and access to new and exciting environmental analyzers, such as ICPMS, GCMS, and LCMSMS.
- AETC study materials and practice exams provided for free.
- Free tuition for anyone that takes an AETC "D" or "C" Level Operator class and does not pass the associated certification exam.
- 24-hour hotline for water or wastewater emergencies.

The idea behind Accurate Environmental Training Center is to provide operators with high quality education and training, while also serving as an invaluable resource for those operators. Free support is available by phone 24 hours a day, 7 days a week for any water or wastewater related questions or troubleshooting issues. When questions or problems arise, clients can rely on the professionals at Accurate Environmental to offer assistance for any type and size of treatment system. Besides operator training, Accurate's team of experts can provide laboratory testing, field and sampling services, engineering services, and lab supply sales – a range of services no other single provider in Oklahoma can offer.

Operators that attend AETC classes quickly realize the value of the program and can return to their facilities with confidence knowing they have received the highest quality education, and that a support network of environmental scientists and experts are only a phone call away. For systems with few operators and limited resources, the Accurate Environmental Training program offers an exceptional value that can't be beat at any price.

STILLWATER CLASSES

MARCH

05 – 07 "D" Water & Wastewater Oper
08 Open Exam Session #10852
11 – 12 "C" Wastewater Operator
25 – 28 "C" Water Laboratory

APRIL

02 – 04 "D" Water & Wastewater Oper
05 Open Exam Session #10853
15 – 18 "C" Wastewater Laboratory
29 – 05/02 "A/B" Wastewater Laboratory

MAY

07 – 09 "D" Water & Wastewater Oper
10 Open Exam Session #10987
13 – 14 "C" Water Operator
20 – 23 "A/B" Water Laboratory

JUNE

06 Bio Processes/Activated Sludge
13 Sampling
20 Operator Math
27 Laboratory QA & QC

TULSA CLASSES

MARCH

01 Open Exam Session #10850
13 – 14 "C" Water Operator
19 – 21 "D" Water & Wastewater Oper
27 – 28 "C" Wastewater Operator

APRIL

08 – 11 "B" Water Operator
12 Open Exam Session #10851
23 – 25 "D" Water & Wastewater Oper

MAY

03 Open Exam Session #10988
15 – 16 "C" Wastewater Operator
28 – 30 "D" Water & Wastewater Oper

JUNE

04 Sampling
11 Bio Processes/Activated Sludge
18 Laboratory QA & QC
25 Operator Math

Recently Updated ODEQ Exam Application

The Oklahoma Department of Environmental Quality has updated their Operator Certification Exam Application form, as well as several other certification and registration forms. The latest version of the Exam Application Packet can be downloaded from the Accurate Environmental website (www accuratelabs.com). Visit the ODEQ website for a complete listing of water and wastewater operator forms. Remember – exam applications must be submitted to the ODEQ at least 3 weeks before your exam date. If you have any questions about the registration process, contact Jeff Clarke at Accurate Environmental Training Center at (800) 516-LABS or jeff@accuratelabs.com.

Accurate Environmental is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

Accurate Labs is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

Accurate Environmental Training Center (AETC) is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

Accurate Laboratory Supplies (ALS) is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

Accurate Field Services, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

Accurate Engineering Services (AES) provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
