The Path to Success

Accurate Environmental prides itself on being an innovative leader in the environmental field. We focus on meeting our client's needs. Our state of the art Environmental laboratory, operator training facility, and engineering group provide the tools necessary to better serve our clients. Our background and experience providing engineering services allows us to identify and correct treatment system deficiencies. We call this Environmental Insurance.

Environmental Insurance

- Highly Qualified Staff
- Expert Technical Assistance.
- On-Call (24/7) Technical Advice.
- On-Site Monthly Inspection.
- Evaluate Plant Compliance with State and Federal Regulations.
- Correspond With Regulatory Agencies.
- Treatment Process Troubleshooting.
- Performance and Capacity Evaluation.
- Engineering Recommendations to Improve Plant Operations, Performance, and Efficiency.
- Teamwork Approach to Resolve Plant Deficiencies.
- Monthly and Annual Report Assistance.

Quality Assurance and Quality Control Classes

Accurate Environmental Training Center offers specialized Quality Assurance and Quality Control classes every year for water and wastewater treatment plant lab technicians. In fact, Accurate has offered QA/QC refresher classes every June since 2007. Accurate Environmental has always realized the importance of a rigorous QA/QC program, and given their high levels of certification, they are in an ideal position to help your lab understand and develop its own QA/QC program. Get top notch laboratory Quality Assurance and Quality Control training from a nationally (NELAP) and State (ODEQ) certified laboratory and the largest commercial environmental lab in the state.

UPDATE: Accurate Training Center has added additional Quality Assurance classes to the first half of 2015. These 4-hour classes will cover aspects of an effective QA program, as well as regulations to be aware of when establishing and maintaining a treatment plant lab QA program. View the full 2015 class schedule at <http://www accuratelabs.com/classschedule.php> .

Questions, comments, or suggestions? If you have a question or comment about something you've seen in our newsletter, or if you have suggestions about topics you would like to read about in future newsletters we would like to hear from you. Email your comments or suggestions to jeff@accuratelabs.com .

Accurate Environmental is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

Accurate Labs is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

Accurate Environmental Training Center (AETC) is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

Accurate Laboratory Supplies (ALS) is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

Accurate Field Services, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

Accurate Engineering Services (AES) provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
