Consumer Confidence Report (CCR) Services

The US Environmental Protection Agency's **Consumer Confidence Report (CCR) Rule** requires all community water systems, regardless of size, to prepare and distribute annual water quality reports summarizing information regarding source water, detected contaminants, compliance, and educational information. The purpose of the **CCR Rule** is **to improve public health protection** by providing educational material to allow consumers to make informed decisions regarding any potential health risks pertaining to the quality, treatment, and management of their drinking water supply. July 1st is the deadline for annual distribution of the Consumer Confidence Report to your customers and state or local primary agency for the report covering January 1 through December 31 of the previous calendar year. That means **July 1, 2014 is the deadline for your 2013 CCR**.

Accurate Engineering Services (AES) can assist you by **preparing the annual CCR report** for your Community Water System. With the support of AES, clients can rest easy knowing that they are receiving **professional reports in a timely manner**, while ensuring that they adhere to the content requirements set by the USEPA. For years now, AES has helped systems like yours comply with reporting requirements so that you can focus on the daily operations.

You only have until the end of June to complete your CCR and distribute it to your customers and the DEQ. If you have not started, or you are not sure where to start, **contact Accurate Environmental** for more information about Consumer Confidence Report services. Call **David Kincannon** at **(800) 516-LABS**. Don't wait until it's too late!

AES offers a wide range of **environmental and engineering services** to help treatment systems **operate as efficiently** as possible while continuing to **meet all required Federal and State regulations**. Services can be provided as needed, or as a **monthly retainer service** based on the size and needs of your system.

For more information about **Accurate Engineering Services**
Contact **David Kincannon, P.E.** at **(800) 516-LABS**

STILLWATER CLASSES

APRIL

01 – 03 "D" Water & Wastewater Oper
07 – 08 "C" Wastewater Operator
11 Open Exam Session #11753
21 – 24 "C" Water Laboratory
28 – 05/01 "A/B" Water Laboratory

MAY

02 Open Exam Session #11754
06 – 08 "D" Water & Wastewater Oper
12 – 13 "C" Water Operator
19 – 22 "C" Wastewater Laboratory

JUNE

05 DW Sampling / WW Sampling
12 Biological Processes
19 Operator Math
26 QA and QC

JULY

08 – 10 "D" Water & Wastewater Oper
14 – 15 "C" Wastewater Operator
18 Open Exam Session #11885
28 – 31 "C" Water Laboratory

TULSA CLASSES

APRIL

04 Open Exam Session #11750
09 – 10 "C" Water Operator
14 – 17 "B" Water Operator
22 – 24 "D" Water & Wastewater Oper

MAY

09 Open Exam Session #11751
14 – 15 "C" Wastewater Operator
27 – 29 "D" Water & Wastewater Oper

JUNE

03 Biological Processes
10 DW Sampling / WW Sampling
17 QA and QC
24 Operator Math

JULY

11 Open Exam Session #11886
16 – 17 "C" Water Operator
22 – 24 "D" Water & Wastewater Oper

AETC Online Training Calendar

Accurate Environmental Training Center's (AETC) online training calendar allows you to view upcoming classes sorted by month, location, or type of class. The AETC training calendar also offers online registration for certification and renewal classes. The class listings on the calendar also provide important class info such as class descriptions, class/exam numbers, DEQ exam application deadlines, and more. Download all required forms from the AETC website including class registration packets and the current ODEQ exam application. Everything you need from class registration to applying for certification exams can be found on the Accurate Environmental website. Visit www accuratelabs.com for more information.

Accurate Environmental is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

Accurate Labs is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

Accurate Environmental Training Center (AETC) is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

Accurate Laboratory Supplies (ALS) is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

Accurate Field Services, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

Accurate Engineering Services (AES) provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
