Education = Success

Effectively treating the constantly fluctuating qualities of raw water coming into a plant requires an in-depth understanding of the treatment processes involved. The operator needs to know how to adjust treatment to continue producing the best possible quality effluent, even though the characteristics of the influent are changing day-to-day, or even hour-to-hour. Without proper training and education, the operator is less likely to be able to quickly identify problems in the plant and make decisions to solve those problems.

Accurate Environmental Training Center (AETC) students receive the **highest quality instruction** from **industry experts with decades of experience** and **extensive educational backgrounds**. An AETC education provides the solid foundation required to become a successful, effective operator. The concept is to **educate the operator**, so that as experience is acquired, he/she will become **confident, knowledgeable** and able solve problems **and provide leadership** for other operators.

Even experienced operators run in to problems that require advice, and **Accurate Environmental** is always available to their students and clients when these situations arise. AETC encourages their students to contact them with any questions that may come up after returning their facilities. Students are provided with contact names, phone numbers, email addresses, and even 24 hour emergency numbers. **Seven highly educated instructors with over 100 years of combined experience provide support for operators** both in and out of the classrooms. The quality of our water and the success of the operators that produce it are top priority for Accurate Environmental. Let **Accurate Environmental Training Center** provide the **solid foundation** you need to build a **successful career** in the water and wastewater treatment industry.

For more information and class registrations contact **Jeff Clarke** at

STILLWATER CLASSES

MAY

07 – 09 "D" Water & Wastewater Oper
10 Open Exam Session #10987
13 – 14 "C" Water Operator
20 – 23 "A/B" Water Laboratory

JUNE

06 Bio Processes/Activated Sludge
13 Sampling
20 Operator Math
27 Laboratory QA & QC

JULY

05 Open Exam Session #11212
09 – 11 "D" Water & Wastewater Oper
15 – 16 "C" Wastewater Operator
22 – 25 "C" Water Laboratory

AUGUST

02 Open Exam Session #11213
06 – 08 "D" Water & Wastewater Oper
12 – 13 "C" Water Operator
26 – 29 "C" Wastewater Laboratory

TULSA CLASSES

MAY

03 Open Exam Session #10988
28 – 30 "D" Water & Wastewater Oper

JUNE

04 Sampling
11 Bio Processes/Activated Sludge
18 Laboratory QA & QC
25 Operator Math

JULY

12 Open Exam Session #11214
23 – 25 "D" Water & Wastewater Oper

AUGUST

09 Open Exam Session #11215
14 – 15 "C" Wastewater Operator
20 – 22 "D" Water & Wastewater Oper
26 – 29 "B" Wastewater Operator

ODEQ Renewal Training Required By June 30th

Accurate Environmental Training Center offers ODEQ approved training for the annual renewal of water and wastewater operator and laboratory certifications. All operator and lab licenses expire June 30th, and **you must receive at least 4 hours of approved training by June 30th** in order to renew your certification(s). The idea behind renewal training is to refresh information that you are not using on a regular basis, or to expand upon your existing knowledge to allow you to better perform your job duties. **AETC has 4-hour refresher classes scheduled every Tuesday and Thursday in June.** Check the training schedule above for class titles and dates. **Contact Jeff Clarke** for more information or to register for class.

Accurate Environmental is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

Accurate Labs is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

Accurate Environmental Training Center (AETC) is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

Accurate Laboratory Supplies (ALS) is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

Accurate Field Services, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

Accurate Engineering Services (AES) provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
