DON'T WAIT!!! Your ODEQ License Expires on June 30th!

If you haven't already done it, don't forget to schedule your ODEQ license renewal training with **Accurate Training Center** today. Classes are filling quickly, so don't wait! All ODEQ operator and laboratory licenses **expire on June 30th**. Each operator or lab tech will need to get the required amount of **refresher training before July 1st** to keep their licenses current. Since the recent ODEQ mandated increase in required renewal training hours, many operators will need more than 4 hours this year. Call today if you need help determining how many renewal hours you are going to need.

Accurate Training Center is offering **4-hour morning refreshers and 4-hour afternoon refreshers on Tuesdays in Tulsa and Thursdays in Stillwater** throughout the month of June. New classes have been added to the June refresher schedule for 2024. New topics include **Disinfection (chloramine), DMR & MOR Prep, and Hands-On Lab**. Also included in the June refreshers are **Intermediate and Advanced Operator Math, Sampling & Quality Assurance, and Water and Wastewater System Troubleshooting**. With refresher classes scheduled every week in June, **ATC** provides operators and lab techs with a convenient way to get anywhere from the **4 hours required for "D" operators, all the way up to 16 hours for those with "A" licenses**. The class schedule to the right lists all the ATC renewal classes that are still available.

If you have any questions about the classes, would like to register for training, or if you have questions about the enrollment or renewal process contact **Jeff Clarke** at **Accurate Training Center** at **(800) 516-5227 ext 144** or email Jeff@accuratelabs.com.
