SEPTEMBER

21 – 23 D W&WW Oper

Have you taken 4 hours of renewal training this year?

All ODEQ Water and Wastewater Operator/Laboratory licenses expire on June 30th, 2010. In order to renew your license(s), you must have taken at least 4 hours of DEQ approved training sometime between July 1st, 2009 and June 30th, 2010. If you have not, contact Jeff Clarke at Accurate Environmental Training Center about signing up for one of our June renewal classes. We have 4-hour classes scheduled every week this month to help you take care of your annual renewal training (*see schedules to the left*). The classes are filling up quickly as we get down to the wire, so contact us today to reserve your spot.

Certification Classes

Certification classes will resume in July. There is still a couple weeks to get signed up for the Class "C" Water Operator class in Stillwater. The Class "A"/"B" Operator classes will be held in Tulsa in the coming months. The A/B Water Operator class is scheduled for July, so there is not much time left to get signed up before reaching the DEQ Exam Application deadline. The application deadline is always 3 weeks prior to the scheduled test dates. The ODEQ Certification exams are offered on the last day of all AETC certification classes.

Preparing for the new fiscal year...

If you are interested in the July classes, but your new City budget will not be in place before the enrollment deadlines, please contact me and we can discuss billing options that will allow you to get the training you need. It is import to us at Accurate Environmental that the necessary training is available to you when you need it, and we will do what we can to help make that happen. Contact us today for more information about certification classes and/or billing options.

If you would like to sign up for classes or need additional information, please contact
Jeff Clarke at (800) 516 – 5227 or jeff@accuratelabs.com
