Consumer Confidence Report Services

The US Environmental Protection Agency's **Consumer Confidence Report (CCR) Rule** requires all community water systems, regardless of size, to prepare and distribute annual water quality reports summarizing information regarding source water, detected contaminants, compliance, and educational information. The purpose of the CCR Rule is **to improve public health protection** by providing educational material to allow consumers to make informed decisions regarding any potential health risks pertaining to the quality, treatment, and management of their drinking water supply. July 1st is the deadline for annual distribution of the Consumer Confidence Report to your customers and state or local primary agency for the report covering January 1 through December 31 of the previous calendar year. That means **July 1, 2012 is the deadline for your 2011 CCR.**

Accurate Engineering Services (AES) can assist you by **preparing the annual CCR report** for your Community Water System. With the support of AES, clients can rest easy knowing that they are receiving **professional reports in a timely manner**, while ensuring that they adhere to the content requirements set by the USEPA. For years now, AES has helped systems like yours comply with reporting requirements so that you can focus on the daily operations.

There is **only one month left** to complete your CCR and distribute it to your customers and the DEQ. If you have not started, or you are not sure where to start, **contact Accurate Environmental** for more information about Consumer Confidence Report services. Call **David Kincannon** at **(800) 516-LABS**. Don't wait until it's too late!

June Renewal Training Available

Don't forget – your ODEQ Operator and/or Laboratory license expires on June 30th. If you have not taken at least 4 hours of DEQ approved training since July 1st, 2011 you need to contact **Accurate Environmental Training Center (AETC)** to schedule your **renewal training** for this year. Accurate Training Classes are designed to refresh and expand the operator's knowledge and skills to help them develop a better understanding of their roles as Public Health Professionals in the field of water treatment. Classes are filling very quickly. The longer you wait, the harder it will be to find available classes. **AETC has DEQ Operator and Laboratory renewal classes scheduled every week** throughout the month of June. Don't put it off any longer. **Call Jeff Clarke at Accurate Environmental Training Center** today to reserve your spot in the best renewal classes in the State. You can **also view training schedules and register online at www accuratelabs.com**.

STILLWATER CLASSES

JUNE

07	Biological Processes
14	Quality Assurance & Quality Control
21	Intermediate Math / Advanced Math
29	Sampling

JULY

06	Exam Session #10298
10 – 12	"D" Water & Wastewater Oper
17 – 19	"C" Wastewater Operator
23 – 26	"C" Water Laboratory

AUGUST

03	Exam Session #10300
07 – 09	"D" Water & Wastewater Oper
14 – 16	"C" Water Operator
20 – 23	"C" Wastewater Laboratory

SEPTEMBER

04 – 06	"D" Water & Wastewater Oper
07	Exam Session
17 – 20	"B" Water Laboratory
17 – 21	"A" Water Laboratory

TULSA CLASSES

JUNE

05	Sampling
12	Intermediate Math / Advanced Math
19	Quality Assurance & Quality Control
26	Biological Processes/Activated Sludge

JULY

13	Exam Session #10294
24 – 26	"D" Water & Wastewater Oper

AUGUST

10	Exam Session #10295
20 – 23	"B" Water Operator
20 – 24	"A" Water Operator
28 – 30	"D" Water & Wastewater Oper

SEPTEMBER

11 – 13	"C" Water Operator
14	Exam Session
25 – 27	"D" Water & Wastewater Oper

Online Registration For AETC Classes!

Online registration is available for all AETC certification and renewal classes at www accuratelabs.com. Accurate Environmental Training Center's online training calendar lets you view upcoming classes, month by month and/or by location, view class descriptions, and register for classes, all right from your computer. If you don't have internet access, or would prefer to talk to someone about selecting a class, call (800) 516-LABS to talk to a friendly, knowledgeable person to assist you throughout your registration process.

**Click the calendar preview to the right to view the online training calendar.*

Accurate Environmental is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

Accurate Labs is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

Accurate Environmental Training Center (AETC) is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

Accurate Laboratory Supplies (ALS) is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

Accurate Field Services, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

Accurate Engineering Services (AES) provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
