## Consumer Confidence Report (CCR) Services

The US Environmental Protection Agency's **Consumer Confidence Report (CCR) Rule** requires all community water systems, regardless of size, to prepare and distribute annual water quality reports summarizing information regarding source water, detected contaminants, compliance, and educational information. The purpose of the **CCR Rule** is to **improve public health protection** by providing educational material to allow consumers to make informed decisions regarding any potential health risks pertaining to the quality, treatment, and management of their drinking water supply. July 1st is the deadline for annual distribution of the Consumer Confidence Report to your customers and state or local primary agency for the report covering January 1 through December 31 of the previous calendar year. That means **July 1, 2015 is the deadline for your 2014 CCR.**

**Accurate Engineering Services (AES)** can assist you by **preparing the annual CCR report** for your Community Water System. With the support of AES, clients can rest easy knowing that they are receiving **professional reports in a timely manner**, while ensuring that they adhere to the content requirements set by the USEPA. For years now, AES has helped systems like yours comply with reporting requirements so that you can focus on the daily operations.

**You only have until the end of June to complete your CCR and distribute it to your customers and a copy to the DEQ.** If you have not started, or you are not sure where to start, **contact Accurate Environmental** for more information about Consumer Confidence Report services. Call **David Kincannon** at **(800) 516- LABS**. Don't wait until it's too late!

**AES** offers a wide range of **environmental and engineering services** to help treatment systems **operate as efficiently** as possible while continuing to **meet all required Federal and State regulations**. Services can be provided as needed, or as a **monthly retainer service** based on the size and needs of your system.

For more information about **Accurate Engineering Services**  
Contact **David Kincannon, P.E.** at **(800) 516-LABS**

## STILLWATER CLASSES

### JUNE

04 (pm)	Operator Math
11 (am/pm)	DW Sampling / WW Sampling
18 (am)	Biological Processes
25 (pm)	QA and QC

### JULY

17	Open Exam Session #12761
07 – 09	"D" Water & Wastewater Oper
13 – 14	"C" Water Operator
20 – 23	"A/B" Water Operator

## TULSA CLASSES

### JUNE

02 (pm)	Biological Processes
09 (am)	QA and QC
16 (pm)	Operator Math
23 (pm)	DW Sampling
30 (pm)	WW Sampling

### JULY

10	Open Exam Session #12762
15 – 16	"C" Wastewater Operator
28 – 30	"D" Water & Wastewater Oper

## Renewal Training Classes

Accurate Environmental Training Center provides renewal classes for all levels of ODEQ Operator and Laboratory certifications. Renewal classes are scheduled every week in Tulsa and Stillwater throughout the month of June. Tulsa renewal classes are held every Tuesday and Stillwater classes are held every Thursday in June. Morning and afternoon classes are available to help make scheduling your renewal training convenient for a variety of work schedules. Class topics include Biological Processes, Drinking Water and Wastewater Sampling, Operator Math, and Laboratory Quality Assurance and Quality Control. Your annual renewal training needs to be completed by the end of June. If you have not taken at least 4 hours of training since July 1<sup>st</sup>, 2014 contact Accurate Environmental Training Center to schedule a class today! For more information or to register for training call Jeff Clarke at 800-516-5227 or email [jeff@accuratelabs.com](mailto:jeff@accuratelabs.com).

**Questions, comments, or suggestions?** If you have a question or comment about something you've seen in our newsletter, or if you have suggestions about topics you would like to read about in future newsletters we would like to hear from you. Email your comments or suggestions to [jeff@accuratelabs.com](mailto:jeff@accuratelabs.com) .

**Accurate Environmental** is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

**Accurate Labs** is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

**Accurate Environmental Training Center (AETC)** is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

**Accurate Laboratory Supplies (ALS)** is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

**Accurate Field Services**, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

**Accurate Engineering Services (AES)** provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
