Annual License Renewal Training Deadline: June 30, 2018

All Oklahoma Department of Environmental Quality Water and Wastewater Operator and Laboratory licenses expire every June 30th. In order to renew your license, you need to take at least 4 hours of DEQ approved training before June 30th and submit the associated renewal fees and documentation to the state.

You should have received your renewal letter in mail from the DEQ, and if not, you should get it very soon. ***Please be aware that many of the renewal letters were sent out incorrectly indicating that training requirements have been met, when in fact, they have not.*** That is being corrected and the DEQ will send out new letters to let those operators know they still need their annual 4 hours of renewal training.

Accurate Training Center is offering **4-hour refresher classes every Tuesday in Tulsa and every Thursday in Stillwater**. Class discussions will include topics such as water and wastewater system overviews, troubleshooting, and sampling. These classes will help operators develop a **better understanding of how and why we treat our drinking water and wastewater**.

Classes are filling quickly so don't wait. Call or go online today to reserve your spot in one of the upcoming **Accurate Training Center refresher classes**. The schedule to the right lists the days and times for the June classes. Morning classes are scheduled from 8 am – 12 pm, and afternoon classes are scheduled 1 pm – 5 pm.

For more information, or to register for training, please contact Jeff Clarke at (800) 516-5227 or email Jeff@accuratelabs.com.
