Mar – Envir'l Training  
Feb – Environmental Ins.  
Jan – Operator Leasing  
Dec – Lab Training  
Nov – PFAS Testing  
Sep – Radiological Testing  
Aug – Environmental Ins.

## AETC Classes Have Resumed!

We are excited to announce that **Accurate Environmental Training Center (AETC) classes have resumed** as of May 13<sup>th</sup>, 2020. The coronavirus pandemic has created a lot of chaos over the past few months, putting a lot of operators behind in required certification training and testing. Due the delays in training, **AETC has added extra “D” Water & Wastewater Operator classes**, as well as **additional 4-hour refresher classes** (*see page 2 for class dates*).

Even though classes have resumed, the concern of spreading the coronavirus has prompted AETC to add some safety precautions in order to protect our clients and staff. Please see below for additional steps AETC is taking to stop the spread.

**For the foreseeable future, AETC will implement the following guidelines for all training classes:**

- 1. Limiting class sizes to 12 or fewer in order to maintain the minimum 6 feet social distancing recommendation.**
- 2. Everyone in the building will be required to wear a mask. If a student shows up without a mask, we will provide one. If anyone refuses to comply with that request, they will not be able to attend the class and will have to leave.**
- 3. Classrooms, bathrooms, and common areas will be sanitized at least twice per day.**
- 4. Hand sanitizer will also be available to everyone.**

We appreciate everyone's understanding and cooperation while these safety guidelines are in place. Client and staff safety are priorities for AETC. We will continue to follow CDC guidelines until such guidelines are no longer necessary.

If you have any questions or concerns about AETC classes or our procedures for protecting client health while attending class, please contact **Jeff Clarke** at **(800) 516-5227** or email [jeff@accuratelabs.com](mailto:jeff@accuratelabs.com)
