NELAP ACCREDITED TNI LABORATORY

ATC renewal class schedule and DEQ requirements on page 2.

You Have Less Than 30 Days to Get Your Renewal Training

June is here and will be over before you know it. All ODEQ license renewal training needs to be done before July 1st to keep your license valid. Everyone must complete at least 4 hours of in-person training. If you have a "C"-level license or higher, then you will need more than 4 hours annually. **Accurate Training Center** is offering **DEQ renewal classes in Tulsa and Stillwater** every week, all month long with morning and afternoon classes available.

ATC renewal classes are designed to help operators improve their knowledge and skills while also meeting **annual renewal training** requirements **for all levels** of operator and laboratory licenses. Since there are morning and afternoon classes available, operators can get either **4 or 8 hours** of renewal training in one day. Topics include, but are not limited to, Sampling, Math, Disinfection Methods, Hands-On Lab, and Troubleshooting. ATC renewal classes are designed to be informative and relevant to current water and wastewater operational standards. Don't wait! Classes are filling quickly!!!

Call now or register online to secure your spot before it's too late!
See page 2 for the ATC June renewal class schedule. All ATC renewal classes can be used to renew ANY level DEQ certification.

If you have any questions or would like more information about **ODEQ renewal or certification training**, contact **Jeff Clarke** at Jeff@accuratelabs.com or call **(800) 516-5227 ext. 144**
