Fifth Unregulated Contaminant Monitoring Rule – UCMR 5

Monitoring for the fifth Unregulated Contaminant Monitoring Rule (**UCMR5**) began in January 2023. The UCMR program consists of 30 unregulated contaminants to determine whether future regulation for those contaminants is necessary. The current program's monitoring list includes **29 PFAS compounds** and **lithium**. All public water systems serving at least 3,300 people, and a representative group of smaller systems, will be required to participate in the UCMR program. Based on the system's source water (surface or groundwater), systems will be required to collect samples at certain intervals during consecutive 12-month periods. The samples must be analyzed by EPA-approved laboratories.

Accurate Labs is one of the few labs in the nation that are approved by EPA for **all UCMR5 methods**. Accurate Labs has been providing environmental testing services since 1998 and has more than a decade of **experience testing PFAS** in drinking water. **Accurate Labs is the largest commercial lab** in Oklahoma with offices in Stillwater (headquarters), Tulsa, and Oklahoma City. Samples can be dropped off at any of our three locations or shipped to the lab for analysis. Strict **quality control** procedures, **experienced lab techs**, and **state-of-art instrumentation** ensure that the data produced is accurate and precise, with some of the **shortest turn-around times** in the industry.

**For more information about UCMR5 testing services, or
to discuss sample scheduling contact**

Accurate Stillwater Operator/Lab Classes

D Water & Wastewater Operator

August 8 – 10, September 12 – 14, October 10 – 12

C Water Operator

October 18 – 19

C Wastewater Operator

August 16 – 17

A/B Water Laboratory

August 28 – 31

A/B Wastewater Laboratory

October 23 – 26

C Wastewater Laboratory

September 25 – 28

Open Exam Sessions

August 4, September 1, October 6

Accurate Tulsa Operator Classes

D Water & Wastewater Operator

August 21 – 23, October 23 – 25

C Water Operator

August 14 – 15

C Wastewater Operator

October 16 – 17

A/B Water Operator

October 30 – November 2

Open Exam Sessions

August 11, October 13

IMPORTANT: Certification exams are offered on the last day of class. You must submit an exam application to the ODEQ at least 3 weeks before your scheduled test date. Copies of the DEQ application can be downloaded from the Accurate Labs and Training Center website at

www.accuratelabs.com/training-center

You can also register for classes online, download copies of the DEQ operator study guides and lab manuals, and explore the wide range of services Accurate offers.

For more information, or to register for training contact Jeff Clarke at (800) 516-5227 or email Jeff@accuratelabs.com
