On-Site Environmental Training

Studies have shown that providing ongoing training and career development opportunities can reduce employee turnover by as much as 32%. On top of that, it is estimated that the cost of employee turnover can be as high as 1.5 times the employee's annual compensation. **Accurate Environmental Training Center** has been providing operator training classes for the past 15 years, founded on the idea that operator training should be productive and meaningful. They strive to provide the best training classes to help operators **develop their knowledge and skills**, allowing them do their jobs as safely and effectively as possible. **AETC** utilizes **multiple instructors with degrees in the subjects they teach**, and **individual experience ranging from 15 to 30 years each**. **AETC** has **seven ODEQ Certified staff instructors** for all levels of laboratory and operations classes. **AETC study guides and practice exams are provided for free**, as are snacks and refreshments throughout each day of class.

Accurate Training Center offers a wide variety of classes ranging from **plant and laboratory operations** to **Quality Control** and **Biological Processes**. All **AETC** classes are **ODEQ approved** to meet certification and renewal training requirements. Classes are typically held at their **state-of-the-art classrooms in Stillwater and Tulsa**, but **can also be held on-site at the client's facility**. A distinct advantage of **AETC** is that they have the **knowledge and resources on staff to create custom training classes** that are tailored to meet the specific needs of the client. **Accurate** instructors have **experience with municipal and industrial treatment systems**, and are familiar with the majority of the existing treatment systems in the state.

AETC regularly provides on-site certification and custom training classes for the following organizations:

- Municipal Water Treatment Plants
- Municipal Wastewater Treatment Plants
- Industrial Pre-Treatment Systems
- Military Bases
- Native American Tribes

If you would like more information about **Accurate Environmental Training** services contact **Jeff Clarke** at **(800) 516-LABS** or jeff@accuratelabs.com .

STILLWATER CLASSES

AUGUST

02 Open Exam Session #11213
06 – 08 "D" Water & Wastewater Oper
12 – 13 "C" Water Operator
26 – 29 "C" Wastewater Laboratory

SEPTEMBER

06 Open Exam Session #11440
10 – 12 "D" Water & Wastewater Oper
16 – 19 "A/B" Water Laboratory

OCTOBER

21 – 24 "A/B" Wastewater Laboratory

NOVEMBER

01 Open Exam Session #11442
05 – 07 "D" Water & Wastewater Oper
11 – 14 "A/B" Water Operator
18 – 21 "C" Water Laboratory

TULSA CLASSES

AUGUST

09 Open Exam Session #11215
14 – 15 "C" Wastewater Operator
20 – 22 "D" Water & Wastewater Oper
26 – 29 "B" Wastewater Operator

SEPTEMBER

13 Open Exam Session #11436
18 – 19 "C" Water Operator
24 – 26 "D" Water & Wastewater Oper

OCTOBER

04 Open Exam Session #11437
16 – 17 "C" Wastewater Operator
29 – 31 "D" Water & Wastewater Oper

NOVEMBER

08 Open Exam Session #11438
19 – 21 "D" Water & Wastewater Oper

Shorter Classes Yield Multiple Benefits

After soliciting feedback from students and system managers, Accurate Environmental Training Center has implemented some changes to improve their ability to serve their clients as effectively as possible. AETC has adjusted the format of several certification classes in order to save the client time and money, while continuing to provide in-depth training without sacrificing quality. The class "C" Operator and class "A" Operator and Lab classes have been shortened by one day. To do this, AETC has reorganized the content of these classes to be able to finish covering the material sooner, giving the students an extra night to review and study before taking the certification exams. All of the changes made to the training format have been to the benefit of the operator in an effort to reduce the stress of testing and increase retention by providing additional study time after all material has been covered. AETC is constantly looking for ways to better serve their clients and welcomes any feedback or suggestions the clients have to offer about how they might do that. Contact Accurate Environmental Training Center today for more information, or visit them online at www accuratelabs.com.

Accurate Environmental is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

Accurate Labs is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

Accurate Environmental Training Center (AETC) is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

Accurate Laboratory Supplies (ALS) is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

Accurate Field Services, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

Accurate Engineering Services (AES) provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
