Laboratory Supplies

Accurate Laboratory Supplies (ALS) specializes in providing analytical testing equipment and supplies to municipal water and wastewater systems and rural water systems, as well as industries and educational facilities. Not only does ALS offer **competitive pricing and unbeatable customer service**, but the convenience of being able to **order supplies, submit samples for testing, get operator training and operational assistance** from a licensed engineer, **all from one company**, represents a **value** that is nearly impossible to put a price on.

Whether you are building a lab from the ground up, or needing to re-stock supplies and replace equipment, **ALS** can help you get the **equipment and supplies** you need **at the best value** for your money. pH buffers, meters, probes, filter paper, glassware, test kits and much more are available with one simple phone call. Larger equipment such as water baths, balances, and ovens can also be purchased through **Accurate Laboratory Supplies**. **ALS** is able to make shipping and delivery more cost effective for the client by providing **free delivery** along our routine weekly sample pick up routes, whenever possible.

Client Benefits of Using Accurate Laboratory Supplies:

- Superior quality products and services at competitive prices
- Technical and training support through Accurate Labs and Training Center
- Free delivery on routes, or convenient vendor direct shipping
- Simplified purchasing – one call for all your laboratory needs
- Friendly, knowledgeable staff

All your laboratory needs, from service to supplies, are just one phone call away. For more information about **Accurate Laboratory Supplies**, or to get a quote, contact **Ron Fazel** at **(800) 516-5227** or email Ron.Fazel@accuratelabs.com.

"C" Water Operator Class Added to October Schedule

Accurate Training Center has added a "C" Water Operator certification class to the Stillwater schedule in October. Class dates will be October 5th – 6th with the certification exam being offered on the morning of the 7th. As always, you need to submit an exam application to the ODEQ at least 3 weeks prior to the exam date. That means you will need to complete the DEQ application and submit it by mail for fax no later than September 16th in order to take the certification exam on October 7th. For more information or to register for classes contact Jeff Clarke at (800) 516-5227 or email jeff@accuratelabs.com.

Questions, comments, or suggestions? If you have a question or comment about something you've seen in our newsletter, or if you have suggestions about topics you would like to read about in future newsletters we would like to hear from you. Email your comments or suggestions to jeff@accuratelabs.com .

Accurate Environmental is one of the nation's most unique and comprehensive environmental service providers. They not only operate the largest commercial environmental lab in Oklahoma and state-of-the-art operator and laboratory training centers, but also provide laboratory supply sales, field and sampling services with weekly sample pick-up routes, as well as environmental and engineering services.

Accurate Labs is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

Accurate Environmental Training Center (AETC) is an award winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

Accurate Laboratory Supplies (ALS) is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

Accurate Field Services, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

Accurate Engineering Services (AES) provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
