Environmental Training

Accurate Environmental Training Center (AETC) began offering 4-hour refresher classes in 1998. The concept was simple – provide annual refresher training to drinking water and wastewater plant operators and lab technicians that expands their working knowledge and improves their operational skills. Often times refresher classes end up being a 4-hour sales pitch, which is not the intended purpose of refresher training. What good is a “refresher” class, if it does not help you become a better operator? That was one of the first problems AETC wanted to address when starting the training center.

Over the past 22 years, AETC has grown to offer **14 different certification classes, and numerous 4-hr refresher classes** at both of their training centers in Stillwater and Tulsa. **On-site and custom training classes** are also available. AETC has made it their mission to provide the **highest quality training** possible giving operators and lab techs the **knowledge and skills necessary to be effective and successful** in their careers.

AETC offers all levels of drinking water and wastewater operator certification classes, as well as laboratory certification classes. Classes are offered year-round at their headquarters in Stillwater and their training center in Tulsa. The online certification exams are always offered on the last day of class for all students that have been pre-approved by ODEQ.

Accurate’s laboratory training classes are one of the many things that set AETC apart from the competition. AETC lab classes are taught by **experienced and highly educated instructors** that have **decades of experience** working in and managing environmental laboratories. AETC provides **more hands-on lab training** than any other lab certification classes available. About half of the student’s class time is spent doing hands-on training for each of the analyses discussed in the class. The ample hands-on training ensures that students not only **understand the theory behind the various test methods**, but also have **proper technique** when actually performing the tests in the lab.

For more information about AETC certification and renewal training contact **Jeff Clarke** at (800) 516-5227 or email Jeff@accuratelabs.com.

OPERATOR & LAB CLASS SCHEDULE

STILLWATER

OCTOBER

02 Open Exams
06-08 D W & WW Operator
12-13 C W Operator
19-22 A/B W Laboratory

NOVEMBER

03-05 D W & WW Operator
06 Open Exams
09-10 C WW Operator
16-19 C WW Laboratory

DECEMBER

01-03 D W & WW Operator
04 Open Exams
07-08 C W Operator
28-31 C W Laboratory

TULSA

OCTOBER

09 Open Exams
20-22 D W & WW Operator
26-29 AB W Operator

NOVEMBER

11-12 C W Operator
13 Open Exams
17-19 D W & WW Operator

DECEMBER

09-10 C WW Operator
11 Open Exams
15-17 D W & WW Operator

IMPORTANT!!!

Exam applications must be submitted to the ODEQ at least 3 weeks before your class.
