Accurate Environmental Labs: EPA Chemical Phase II/V Program

ODEQ is starting the Phase II/V Program in January of 2018. The purpose is to protect public health by monitoring 13 inorganic chemicals (IOCs), 21 volatile organic compounds (VOCs) and 29 synthetic organic chemicals (SOCs). The program requires all Public Water Systems over 10,000 residential population to sample for the following chemicals on the following schedule:

- **IOCs:** Groundwater systems – Triennially
Surface Water – Annually for first 3 years
- **VOCs:** Quarterly for first 4 quarters
- **SOCs:** Quarterly for first 4 quarters

Accurate Labs provides all required testing for the Phase II/V Program. You should have already received information from the ODEQ about your sampling schedule. **Contact Danny Chance at Accurate Labs to schedule your analysis and make sure you are on the list to receive sampling kits. For more information or to schedule analysis call (800) 516-5227 or email Danny@accuratelabs.com.**

Below are just a few examples of the compounds belonging to each of the groups that will be tested for in the Phase II/V program.

Inorganic Chemicals (IOC)
<ul style="list-style-type: none">• Arsenic• Asbestos• Chromium• Cyanide• Mercury

Sources: occur naturally, farming practices, industrial processes

Volatile Organic Compounds (VOC)
<ul style="list-style-type: none">• Trihalomethanes• Benzene• Styrene• Toluene• Vinyl Chloride

Sources: improper waste disposal, leaking underground storage tanks

Synthetic Organic Chemicals (SOC)
<ul style="list-style-type: none">• 2,4-D• Diquat• Endothall• Glyphosate• PCBs

Sources: pesticides, herbicides, fuel additives, industrial waste discharges
