Laboratory Supply Ordering Made Simple

For over 25 years, Accurate Lab Supplies (ALS) has been *the one-stop shop* for analytical testing equipment and supplies needed by municipal and rural drinking water and wastewater systems. The **knowledgeable sales staff at ALS** can help you select the **right products** for your needs at the **best price** possible. They can assist in furnishing your new lab from the ground up, or provide you with any equipment and supplies needed to keep your current lab running smoothly and efficiently. Something that many clients might not realize is that if you need **training on laboratory equipment** that you've purchased, **Accurate** can provide that too.

Whether you are setting up a new lab, needing to re-stock supplies, or replace equipment, **ALS** can help you get the equipment and supplies you need at the **best value for your money**. Everything from chemicals, test kits, glassware and accessories to larger equipment such as water baths, balances, and ovens are available through **Accurate Laboratory Supplies** with just one simple phone call. As an added value, **ALS** can make shipping and delivery more efficient and cost effective for the client by providing **free delivery** along our routine weekly routes, or drop shipping supplies directly to the client.

Benefits of ALS create a value for their clients nearly impossible to put a price on:

- Superior quality products and services at competitive prices
- Technical and training support through Accurate Labs and Training Center
- Free delivery on routes, or convenient vendor direct shipping
- Simplified purchasing – one call for all your laboratory needs
- Friendly, knowledgeable staff

All your laboratory needs, from service to supplies, are just one phone call away. For more information about **Accurate Laboratory Supplies** or to get a quote, contact **Ron Fazel** or **Matt Miller** at **(800) 516-5227** or email Ron.Fazel@accuratelabs.com or Matt.Miller@accuratelabs.com

IMPORTANT: Certification exams are offered on the last day of class. You must submit an exam application to the ODEQ at least 3 weeks before your scheduled test date. Copies of the DEQ application can be downloaded from the Accurate Labs and Training Center website at

www.accuratelabs.com/training-center

You can also register for classes online, download copies of the DEQ operator study guides and lab manuals, and explore the wide range of services Accurate offers.

For more information, or to register for training contact Jeff Clarke at (800) 516-5227 or email Jeff@accuratelabs.com

Accurate Labs is comprised of three full-service laboratories, including our headquarters in Stillwater and two additional labs in Tulsa and Oklahoma City. They provide analytical services for drinking water, wastewater, groundwater, soil, sediment, sludge, and hazardous waste. Accurate Labs is nationally certified through The NELAC Institute, and the only commercial lab in Oklahoma that is fully certified for drinking water analysis.

Accurate Environmental Training Center (AETC) is an award-winning training center offering operator and laboratory certification and renewal classes at their classrooms in Stillwater and Tulsa. Using multiple instructors for each class, and various teaching methods, such as pie charts and standard formulas for math, AETC is able to tailor training to meet the needs of each individual student.

Accurate Laboratory Supplies (ALS) is an authorized Hach dealer that can save you valuable time and money on all your laboratory supplies, chemicals, and equipment needs with one simple phone call. ALS even offers FREE DELIVERY to clients along their routine sample pick-up routes.

Accurate Field Services, with a team of well-trained field service technicians, provides field and sampling services throughout the state for drinking water, wastewater, soil, sludge, and hazardous waste. Accurate Field Services also has weekly sample pick-up routes to provide their clients with a fast, economical, and safer way to get samples to Accurate Labs for analysis.

Accurate Engineering Services (AES) provides expert technical assistance related to municipal and industrial water, wastewater, solid wastes and biosolids, industrial pretreatment, and environmental site assessments. AES is here to help your system meet EPA and DEQ rules and regulations, improve operation performance, and reduce operating costs.
