TPH Fingerprinting:

Total Petroleum Hydrocarbon Characterization

Founded in 1990, **Accurate Labs** has long been a leader in environmental and analytical testing, staying ahead of emerging methods and technologies. From the start, the company has embraced innovation to deliver precise, reliable data that meets the evolving needs of industries and regulators. More than three decades later, **Accurate Labs** continues to set **the standard for accuracy, quality, and scientific excellence** in environmental testing.

When it comes to **Total Petroleum Hydrocarbon (TPH) Characterization**, precision and reliability matter most—and that's exactly what you'll find at **Accurate Labs**. Our advanced laboratory combines **state-of-the-art instrumentation** with **decades of analytical experience** to deliver clear, defensible data that regulators and clients trust. **Accurate Labs**' expert chemists specialize in characterizing complex hydrocarbon sources, including **GC Fingerprinting, Surface Tension, Density, Viscosity, and BTU analysis**, ensuring your project results are both accurate and actionable. With a proven track record serving environmental consultants, remediation firms, and government agencies, we offer **rapid turnaround times** without sacrificing quality. With three convenient locations in Oklahoma, **Accurate Labs** provides local service with nationally recognized expertise. Don't risk costly delays or uncertain results—bring your TPH Fingerprinting analyses to **Accurate Labs** and get the dependable data you need to make informed environmental decisions.

For more information about **laboratory testing services** contact
Danny Chance at **405.372.5300 ext 113** or **Danny@accuratelabs.com**
